Onboarding and Communication Perspective
-

High-Level Objectives and Strategic Goals

- **Strategic Goal 1 — Target Customer Groups:** TYPO3's focus for the upcoming years has to be on the public sector and small to medium enterprises.
- **Strategic Goal 2 — Reducing Complexity:** TYPO3 should offer a modern and consistent user interface, self-explanatory workflows, and clear and unified best practices.
- **Strategic Goal 3 — Enabling Better Content:** TYPO3 should efficiently integrate with external tools, enhance content creation experience and in system management and health monitoring.
- **Strategic Goal 4 — Improve Customer-Oriented Communication:** Better backend user experience through clear best practices and in-system support.
- **Strategic Goal 7 — Improve Interconnectivity:** Expanding TYPO3's integration capabilities and allow effortless connections with popular systems through user-friendly integration processes.
- **Strategic Goal 8 — Give Customers High ROI Through Long-Term Support and Easy Maintenance:** By offering long-term support, straightforward maintenance and updates, TYPO3 should promote updates and security, accessible and less costly.
- **Strategic Goal 9 — Support Customer and Agency Success:** Clearly defined communication and feedback channels as well as official and central marketing and sales support assets.
- **Strategic Goal 10 — Improve Scalability:** Use IT resources more efficiently. Scalability and compatibility with diverse cloud, on-premise and shared-hosting environments to optimize the operational efficiency.

WHAT
NOW?

A lot of cleanup in main + 13.4
